I Have Observed.

That the invalid who is always looking for a cold draught seldom fails to find one.

That the successful politician never complains of the fraud practiced by his competitor.

That the citizen who doesn't like flowers is generally one who is too lazy to cut weeds.

That the man who talks loudest about hard times is the man who does the least to make times good.

That he who says life is not worth living gets frightened the worst at the first suggestions of death.

That the fellow who is always dissatisfied with the weather is the first man to discover the storm cloud.

That the man who is always pointing out the dishonesty of his fellow citizens never misses a first class chance to rob the unsuspecting.

That the pious soul who picks flaws in his brother's religion has himself a mighty small chance of breaking into heaven on judgment day.

That the farmer who kicks the hardest about bad weather and poor crops is the one who spends one half his time in bed and the other half in town.

That the fellow who quarrels most at trusts and corporations spends more time getting out of the way of employment than he does in seeking it.

That the individual who is always complaining because world appears to have a grudge against him is the one who is always doing something to offend people.

That the merchant who raises the most fuss because of dull trade is the man who sits around the stove and whistles while his friend next door hustles around and attracts trade to his establishment.

That the woman who spends three days out of the week complaining of the untidiness of her neighbors are saying about her, consumes the other four in saying mean things about somebody else.—Danville Advocate.

THE PRAYER OF A CHINAMAN

Inspired by the First Sight of a Bicycle.

A Baptist missionary once sent home an account of a prayer offered by Wang Cheng Sul on the occasion of the visit of two Americans who were on a tour around the world on bicycles. After the bicyclists had ridden to the mission station Wang prayed:

"We thank Thee, our Heavenly Father, that our eyes have this day seen the real pattern of the 'self going cart' of the ancients. What mysterious wisdom Thine! How willing Thou art to impart knowledge to men! But our sins hinder Thy revelations. How stupid have we become through serving Satan so long! Many years have we lived, and yet to-day for the first time have we seen this marvel of Thy skill, which has enabled Thy servants in the west to understand. Forgive our sins, restore us to Thy favor. Communicate to us, also, Thy mysteries and let us share in the wonderful inventions by which Thou dost make Thy name glorious amongst those who serve Thee. Let us be instructed with Thy secrets, and possess the power of the ancients; so will all our countrymen come to know that we have found the right path and are servants of the true God."

The missionary thinks it very likely that such a prayer will provoke a smile but he bids us believe that Wang was in red hot earnest, and that he simply felt that he had witnessed a miracle and was giving God the glory.—Commercial.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at J. H. Williams' Drug Store; every bottle guaranteed.

Defenders of the Dingley bill would be perfectly safe now in offering a prize for any day that might pass without recording liberal advances in wages somewhere.—Topeka (Kan.) "Capital."

Beverly Jordan was convicted in the Knox circuit court of conspiring to have his wife assaulted, and was sentenced to the penitentiary for a period of ten years. He desired a divorce from his wife and conspired with and induce a friend to enter Mrs. Jordan's bedroom at night and criminally assault her. The evidence was to the effect that the room was dark.

THE FIRST BABY.

As Coming is Looked Forward to With Both Joy and Fear and Its Safe Arrival is Hailed With Pride and Delight by All.

The arrival of the first baby in the household is the happiest and most important event of married life. The young wife who is to become a mother delights to think of the happiness in store for her when the little one shall come into her breast and into the world. But her joy is often marred by the thought of the pain and suffering which she must pass while bringing the little one into the world. An indescribable fear of the danger attendant upon the ordeal soon disposes her to seek relief.

Thousands of women have learned by experience that there is absolutely no necessity for the sufferings which attend childbirth, they know that by the use of "Mother's Friend"—a scientific liniment—for a few weeks before the trying hour, expectant mothers can so prepare themselves for the final event that the pain and suffering of the ordeal are entirely obviated and it is safely passed through with comparatively little discomfort.

All women are interested, and especially expectant mothers who for the first time have to undergo this trial, in such a remedy; for they know that pain and suffering, to say nothing of the danger, which is in store for them. "Mother's Friend" is woman's greatest blessing, for it takes her safely through the worst ordeal of her life. Every woman should be glad to read the little book "Before Baby is Born," which contains information of great value to all. It will be sent free to any one who sends their address to The Bradford Regulator Co., Atlanta, Ga.

and Mrs. Jordan did not know that the man who entered was not her husband. Her husband, she said had entered the room and then slipped out, admitting his friend. The act was repeated twice before she discovered that the man was not her husband.—Mountain Echo.

No Right To Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has consumption or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run down invalid. Only 50 cents at J. H. Williams' Drug Store.

Perhaps we may yet reach something like a clear idea of Mr. Bryan's views regarding dinner etiquette. He would not accept an invitation to dinner until assured that no gold Democrats should be present, but at the dinner Saturday night, which he declares the greatest he ever attended, the Associated Press informed us that "white men elbowed with colored men and white women with colored women," and there were four Japanese and three Chinese present, but the Chinese were merely spectators.—Courier Journal.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at J. H. Williams' drug store.

HOME CURE FOR BLOOD POISON.

Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.

There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off to-day if they had never allowed themselves to be doctored on mercury and potash, the only remedies which the doctors ever give for blood poison. The doctors are wholly unable to get rid of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the light is continued indefinitely, the drugs doing the system more damage than the disease itself.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large spots on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured myself at home, after the doctors had failed completely. It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is beyond their skill. Swift's Specific—"

S. S. S. FOR THE BLOOD

—acts in an entirely different way from potash and mercury—it forces the poison out of the system and gets rid of it entirely. Hence it cures the disease, while other remedies only shut the poison in where it lurks forever, constantly undermining the constitution. Our system of private home treatment places a cure within the reach of all. We give necessary medical advice, free of charge, and save the patient the embarrassment of publicity. AN ORDINARY OLD COIN.

But It Served to Bring Out the Fallings of Weak Humanity.

"Say!" said the street car conductor to a mild mannered man who was deeply engrossed in his newspaper. "Say, young fellow, I didn't want this quarter. I can't use it." The mild mannered man continued to hold out his hand for his change, but paid no other attention to the conductor.

"See here!" yelled the conductor, getting red in the face, "you can't pass no quarter like that on me. It's sick. I can't take it for more than 20 cents."

The mild man looked up and said: "I'm sorry, because you gave me that very quarter yourself last night, and I've been laying for you since. Well, give it here."

He took the quarter and gave the conductor a nickel. As he took the nickel from the conductor he suddenly dropped his newspaper and gave a chuckle.

"Well, well!" he exclaimed, "here's luck. Bless me if that isn't an 1835 quarter with 14 stars and an arrow. It's worth \$3.82." He slipped it into his pocket with evidence of much satisfaction.

A hungry eyed man in the corner, who had overheard the conversation, jumped up and said to the conductor: "Isn't that the very quarter I gave you yesterday morning? I missed that quarter. It was a pocketpiece and a valuable coin. I remember now that I gave it to you. I demand it!" he said, looking fiercely at the mild man. "If you are a gentleman you will give it to me."

"It isn't yours. You never gave it to me. My wife gave me the coin by mistake; it's part of a collection that's been in the family since 1827!" yelled the conductor.

"I tell you it's mine," said the hungry-eyed man. "Thus we wrangled and quarreled all the way down town."

"No," said the mild man to a neighbor, as he stepped from the car. "It's only a plain, ordinary old shiny quarter that I've been trying to pass off for a week. We were all lying. It's worth about 22 cents."—Chicago Inter Ocean.

WITHOUT LEGS OR ARMS.

Round Dumping of a Youngster Born in Kentucky.

An unique arrival at Bonway, Ky., the other day was a baby born without legs or arms. He is just a little round dumping of a youngster, and except for the fact that he is limbless, he is all right. He is going to live and become a big man, and to help him along in life his parents have named him Ernest Dewey Franklin. He was born to Mrs. James A. Franklin. She was naturally shocked when the discovery of his peculiar limitations were announced and it is said her grief was pitiable.

FRIDAY, MAY 5.

ANNOUNCEMENTS:

FOR THE SENATE.

We are authorized to announce Hon. W. Fred Long as a candidate for the office of State Senator in this the Seventh Senatorial District, subject to the action of the Republican party.

FOR REPRESENTATIVE.

We are authorized to announce Hon. R. C. Jarnagin, of Beaver Dam, as a candidate for re-election for Representative, subject to the action of the Republican party.

JOHN C. WOOD was nominated by the Republican convention at Richmond, Wednesday, for Railroad Commissioner in the Third district.

The United States for humanity's sake mobilized a great army and drove the cruel Spaniards from Cuba. Let the next move be on to Georgia.

Our neighbor, on the corner, says the recent war with Spain was a grand success, but it is awful sorry that the McKinley administration will get all the glory for it.

The Herald has found a negro preacher who believes the negroes would be better off if they were back in slavery again. Doubtless he reasons that they would be too valuable to burn.

CAPT. STONE, Democratic candidate for Governor, says the old gang must go. Be patient, Captain, if the old gang don't go in June you will have the pleasure of seeing it go in November.

The Louisville Times, a Democratic paper, says if Evangelist Sam Jones would call off his four weeks engagement in Louisville and spend it in and around Newnan, Ga., he might better serve the progress of civilization.

The Louisville Dispatch's silly story that Gen. W. S. Taylor had declined to make the race for Governor is without foundation and was born of the anxiety of that sheet to keep Mr. Taylor out of the race. Gen. Taylor's friends are very hopeful of his entering the race at an early date.

JUDGE CLIFTON J. PRATT, of Madisonville has authorized the statement that his name will go before the Republican convention as a candidate for Governor. Judge Pratt has seen service in the State Senate and on the bench of his judicial district and his fitness for the position to which he aspires is unquestioned.

CAPT. STONE and Senator Goebel are telling all sorts of stories on Gen. Hardin and the Hardin fellows would like to know why these gentlemen do not expose each other some, too. Probably Capt. Stone declined Hardin's offer of the Senatorship to accept Goebel's gubernatorial proposition, with Goebel at the Senatorial end of the bargain.

UREY WOODSON says the Louisville Dispatch no longer represents the Democracy of Kentucky and that its days are numbered. Urey ought to know for besides being National Committeeman for Kentucky, he also holds the purse-string to the Bryan corruption fund, and we hear it whispered about that if Watt Hardin is nominated for Governor his friends will keep the Dispatch going until after the election, but if Goebel is nominated and Urey tells the Dispatch to go it will have to wait.

THE Owensboro Inquirer, a Democratic paper, commenting upon the cowardly policy of the Hartford Herald with reference to the contest for the Democratic nomination for Governor, very sensibly says:

The Hartford Herald feels called to pat itself on the back, because the Goebel men think it is for Goebel, the Hardin men believe it is for Hardin, and the Stone men count on it for Stone. To an ordinary mind a compliment of this kind would be very doubtful. The newspaper that can successfully conceal its opinions has none to conceal.—Inquirer.

The brutal burning of the negro, Sam Hose, at Newnan, Ga., and the horrible mutilation of his body, both before and after his death, has called forth the severest censure from the pulpit and press of the nation. The blackest page in the history of the American Indians never exceeded in barbaric and savage cruelty this awful outrage. The rapist, black or white, north or south, should pay the penalty of his crime upon the gallows, and his penalty should come swift and sure, but death at the stake was supposed to have passed out with passage of the Indian until it was revived by Texas and Georgia. We recognize the problem with which the Southern

States have to deal in the densely populated black districts where the negroes have not been taught the lesson of individual responsibility as have the negroes farther north, and we would rather see a thousand negroes or white men either hang upon a scaffold than that they should sate their brutal lust with one of the noble women of the south, but God, humanity, decency and the honor of a country fresh from the fields of battle where it rescued a suffering people from barbarous tyranny, demands that these brutal crimes at home shall cease. The south can never tame its negroes with mobs and fire, and the sooner those who are responsible for the governments of the Southern States learn that the negro must be educated and taught his responsibility as a citizen the better it will be for both whites and blacks.

In view of the unfortunate divisions for some time existing in the ranks of the Republican party in Kentucky the wisdom of those Republicans who aspire for political preferment in declining to precipitate an unseemly scramble for the nominations for the State offices at the approaching election is admirable. Profiting by the lessons of the past and standing in the shadow of a statute recently enacted by a Democratic legislature, the purpose of which is to stifle the voice of the people and build up a gigantic political machine to dominate the old Commonwealth with a rod of iron, the Republican leaders have buried their petty differences and are cautiously approaching a campaign upon the result of which the glory or the infamy of Kentucky depends.

"The Democrats believe in the utmost freedom of person and speech, and that every citizen should have a voice in the control of the Government under which he lives,"—Hartford Herald.

Is it possible that the Herald is sincere in the above statement? Does it mean that the Goebel outrage, which, according to South Trimble, was gotten up to steal elections, should be repealed? Does it mean that all the negroes in the south, who have not been hung or burned at the stake before election day, should be allowed to go to the polls and vote, and even vote the Republican ticket if they should choose to do so? Neighbor, if you are really in earnest about allowing every citizen a voice in the control of his government, Perry Belmont and the negroes of the south will hail you as the harbinger of a new era of Democracy.

PROSPERITY.

Over 3,500 Mechanics in Cleveland Received Increased Wages.

Cleveland, O., May 1.—It is estimated that over 3,500 mechanics of this city will receive increased wages dating from today. Seven hundred machine molders get an advance of 10 per cent., and the stove plate molders receive like advance. The carpenters get 2 1/2 cents more an hour. The union plumbers start the month with a straight \$3 a day scale, a 25 cents advance. The structural iron workers get a 5 per cent. advance, and the bricklayers work for 50 cents an hour instead of 45 cents per hour, as heretofore. The plasterers receive a slight increase, and the lathers' union members receive \$2.50 per day instead of \$2.00.

SWORN BY TELEPHONE.

Hartford Attorneys Come to Louisville and Take a Deposition By Wire.

Probably the first deposition by telephone in Louisville was taken last Monday. Stenographer Clarence Walker took it, the deponent being Dr. C. W. Kelley.

It was in the case of Barnett vs. Coleman, a suit on an account, in the Ohio County Circuit Court. Ben D. Ringo for the plaintiff and Harry Taylor for the defendant were in the city taking depositions in the case. In the afternoon the deposition of Dr. Kelley was required by the defendant, and Mr. Walker called him up by telephone to have him step around to the time. Dr. Kelley was in no snapping humor just then, because he was very busy, nor could he pledge himself to an early appointment. Besides, he knew little or nothing about the case.

"Well, ask him just what he does know," suggested one of the attorneys Mr. Walker did so and reported what Dr. Kelley's reply was. Then Mr. Ringo, who was in a hurry to leave for home, suggested that Dr. Kelley's deposition be taken in this manner. "I'll swear him," he said, "this Mr. Taylor was quite willing, and Mr. Walker administered the oath by telephone Dr. Kelley, who repeated what he said, and this was repeated by Mr. Walker to the attorneys, who took his word for it and let it go to record. Then they rang off.—Courier-Journal.

Circulation and Per Capita.

People who think that good times only come with plenty of money ought to be satisfied now. The amount in circulation is the largest ever known at this season of the year and the largest per capita.

The Treasury Bureau of Statistics has just issued a table which shows that for April 1 the entire amount in circulation was \$1,927,846,942. On July 1, 1896, the total was \$1,509,725,200, making an increase since that time of \$418,121,742. The increase has been at the rate of nearly \$500,000 for each business day of this period and for the past 9 months considerably more than that sum. The exact amount gained since July 1 last is \$84,411,793.

The per capita circulation April 1 was \$45.45, an increase of nearly \$4 a head within the past three years. The exact figures of the per capita and money in circulation are as follows:

	Money in circulation.	Per capita.
April 1, 1896...	\$1,328,629,463	\$21.53
April 1, 1897...	1,669,000,694	23.01
April 1, 1898...	1,756,058,645	23.69
April 1, 1899...	1,927,846,942	25.45

Not only is there 25 per cent. more money in circulation than there was July 1, 1896, but the proportion of gold has shown an equally large increase. All money was declared as good as gold in November, 1896, and the fact that it is in gold coin does not greatly matter. Still it is interesting to note. The amount of gold money in circulation has been as follows for the dates named:

	Gold coin.
April 1, 1896...	\$445,912,256
April 1, 1897...	517,125,757
April 1, 1898...	582,129,742
April 1, 1899...	694,855,942

A showing like this is enough to drive the currency calamity-haters forever out of countenance.—Courier-Journal.

In 1812 a British warship on Lake Erie fired a shell which failed to explode. It was treasured as a relic in Ashtabula for years, but accidentally it got into a pile of scrap iron delivered to the Phoenix Iron works foundry and performed its function so well that the furnace doors were blown to smithereens.

The largest city in the world is London, which has a population equaling the combined population of Paris, Berlin, St. Petersburg and Rome. Its streets, placed in a row, would reach around the world, leaving a bit over enough to reach from London to San Francisco.

Snakes the Cats of the Philippines. The snakes are the professional rat catchers in the Philippine archipelago, and every well-regulated household must have its snakes. "Nearly all the older bungalows in Manila," a correspondent writes, "possess what are called house snakes—huge reptiles, twelve or fourteen feet long and as thick as a fire-engine hose, that permanently reside in the roof and live on rats. These big creatures are harmless and rarely, if ever, leave their abodes. Judging from the noise over my cloth ceiling, a pair of these pets find pasturage up above, and I

can hear them whacking around about once a week in their chase after rats.

They are good though noisy rat catchers; but since they must needs eat all they catch, their efficiency seems to be limited to their length of stomach. The only way to get rid of the rats seems to be to buy more snakes, and this is simple enough, for you often see the natives hawling them around in town, the boas curled up around bamboo poles, to which their heads are stuck.

Memphis, Tenn., May 1.—Willis Sees, a negro, was taken from the jail at Osceola, Ark., at 1 o'clock Sunday morning by a mob of about 300 men and lynched.

He was twice strung up and then confessed that he had burned the barn of a man named Quinn.

When winter comes the vital forces of nature are low, and the tree stands like a monument to the dead summer.

They lose their grip on life. They seem like monuments of a buried past. At this crisis there is need of a medicine which will nourish and build up the body, and increase its vital power. Such a medicine is Dr. Pierce's Golden Medical Discovery. It enriches the blood, purifies it, carries off the clogging waste of the system, increases the nutrition of the body, and produces a sound, healthy condition with abundant vital power and physical energy.

David D. Pierce, of Jones, Ohio Co., Ky., writes: "When I began taking Dr. Pierce's Golden Medical Discovery, I had nervous prostration, and was unable to do any work. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became refreshing and I gained fifteen pounds weight. I also gained strength and vigor. I have been six months since I took the medicine and I still have reasonable health. I am now able to do my work, and also my former letter. If you wish to see it, it is in the hands of the publisher. There is no alcohol or other intoxicant in Dr. Pierce's Golden Medical Discovery, neither opium or other narcotic drugs.

The dealer who offers a substitute for the 'Discovery' is seeking to profit himself, and to do so. Insist on having 'Golden Medical Discovery.' Dr. Pierce's Common Sense Medical Adviser is sent free, on receipt of stamps to cover the cost of postage. Send 21 one-cent stamps for edition in paper cover, or 31 stamps for cloth binding. In fact, his standing as one of the world's greatest orators wherever the English language is spoken. And again, he is an honored son of Kentucky, representing all the best traits of character and the best of the present. His subject will be "The Safe Side of Life for young men," and the committee who has taken this lecture under charge has arranged the price so as to enable the poorest to hear him. The admittance will be 25 cents, and the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface of the ear. SAVANNAH, GA.

April 27.—I haven't much news now, but here are a few rays, our time of musing out is set for the 16th of May, so we have 19 days yet of army life, that will put us in home about the 20th. There is no restriction on the men here now, as we are allowed all the privilege any one would want.

Our camp is on Dale avenue. Three miles from town, the car line runs right by our camp, but ten cents looks to some of our boys like a wagon wheel, but they go to town if they have to walk.

Base ball is all the go now, the only amusement the boys have. The Butler county boys are playing now. Company D has the crack team of the regiment. We defeated Company E from Hopkinsville two straight.

We played Company A equals at the base ball park at town Saturday for a \$200 prize. The gate fee going to an old soldier who came from Cuba with us. He was employed there and they don't give any one transportation here unless they wear from the U. S. with us his name is Hargrove. He says he fought under Morgan in the civil war.

Well, I will close, tell my friend Fred Long that he is all right and I will do my utmost for him.

"Courage and Strength in Times of Danger."

Read the warning between the lines. What is that warning? It is of the danger from the accumulation of badness in the blood, caused by the usual heavy living of the Winter months. Spring is the clearing, cleansing time of the year; the forerunner of the brightness and beauty of glorious summer.

Follow the principle that Nature lays down. Start in at once and purify your blood with that great specific, Hood's Sarsaparilla. It never disappoints.

Rheumatism--"Myself and a friend both suffered from severe attacks of rheumatism. Hood's Sarsaparilla cured both. We would not be without it." Wm. H. LARSEN, 55 Leonard St., Fall River, Mass.

Head and Back--"For one year pains in my back and head prevented my household duties. I took Hood's Sarsaparilla and am a well woman. It also cured the grip in our family." Mrs. MARY HENDERSON, Cor. First and Franklin Ave., Columbus, Ind.

Messrs. Shelby and A. C. Taylor and Sheriff Stevens are in Louisville this week attending the Sam Jones meetings, Derby and Buffalo Bill's great show.

If in need of enlarged portraits, call at Schroeter's Floating Studio and see samples and prices on best grades only. His place of business is headquarters for such work.

No one can afford to miss the Sam Jones lecture. It will be the greatest treat of 1899 in Hartford. For a trifle you can hear the most popular lecturer in America.

Field & Son have secured an extra stable and now have ample room to accommodate all their customers. The politest attention and the best of food for your horses.

D. B. Frantz's "wonderful show" at the court house Thursday night consisted of a little commonplace screen work and a good deal of wheezy photography. He caught but few suckers.

Rev. and Mrs. E. E. Pate, Slough-tersville, were guests of friends in Hartford the first of the week. They have many friends here who are always glad to meet and welcome them to their firesides.

The greatest picnic of the season will be given at the Fair grounds, in Hartford, June 24th, by the Masonic Fraternity. The Hartford lodge is made up of men of energy and push and being so we may justly expect a great affair.

Attorney R. R. Wedding, of Hartford, who taught school in this county for more than twenty years, will have a re-union of his pupils at old Salem church, near Rosine, some time in July, 1899. The time and program for the occasion will be published in due time.

Mr. G. S. Fitzhugh, Dundee, gave us a pleasant call Saturday and paid up his subscription to the REPUBLICAN to the end of the present year. Thirty to sixty per cent of the questions are theory and practice of teaching for the examinations to be held this calendar year will be taken from the books of the Teachers' Reading Circle; and 20 to 50 per cent of the questions on History, Civil Government and Geography will be taken from current events.

Supt. H. V. McChesney, of Livingston county, was here Monday looking after his interest in the political field for the Democratic nomination for Supt. of Public Instruction. Prof. McChesney spoke to a very small crowd at the court house. He is a very pleasant fellow, but too short to reach the plumb with a Jno. C. Willis in the field after him, he would hardly be known in the final contest.

Tuesday night, Maude Carter came before Judge Miller and swore out a warrant for Henry Malin, whom she charges with detaining her against her will. The girl is only fourteen years old and was taken from the poor house by Malin about 10 years ago. Deputy Sheriff Claude Stevens arrested Malin Wednesday and brought him to Hartford, where he gave bond for his appearance before Judge Miller, May 10th, when he will be given an examining trial. The parties live at McHenry.

Mr. E. E. Rogers, of near Cromwell, recently presented us with a most remarkable cereal growth. It is a peculiar growth of corn, three large, sound ears and one nubben growing within one and the same sheath. It has long been known that Mr. Rogers was without a peer in the wheat threshing sphere, but no one hardly dreamed that nature would ever be so kind as to bless the fruits of his labor in cereal field so abundantly.

As the shades of evening of April 28th, were falling round about the little village of Horse Branch and all nature hushed in silence, the spirit of Mrs. R. A. Miller winged its way to the home of the blessed. About five days before her death she was suddenly taken with meningitis. She continually grew worse until the end came. Mrs. Rita (James) Hudson, wife of James A. Hudson, of near Cromwell, died at her home, April 27th. Mrs. Hudson had been in ill health for several years, but endured suffering and pain remarkably until a complication of diseases overcame her emaciated body and claimed its return to mother earth. She was the daughter of Mr. and Mrs. S. M. James, of Selet. A noble christian woman has gone to her eternal rest. Her remains were interred in the Smith graveyard near Selet, Friday afternoon. The REPUBLICAN extends condolence to the bereaved family and friends.

Mr. J. B. Blankenship, of near Beaver Dam, is the owner of a ten-months-old calf which has but two feet. During the intense cold weather of the late winter the calf's feet were frozen. Its hind feet came off at the first joint and it now appears that its fore feet will come off at the first joint also. This unfortunate little brute goes about grazing from day to day on two feet and the stubs of its hind legs, the bones of the lower joints of which protrude three or four inches from the skin. Notwithstanding the unfortunate circumstances with which it must battle, the calf is healthy and doing reasonably well.

SOLDIERS' RETURING.

Welcome to the Soldiers of Co. D by the Citizens of Hartford and Ohio county

In recognition of the valiant service rendered by the members of the 3d Ky. Volunteers in the recent unpleasantness between the United States and Spain, and to show the esteem in which the members and officers of Co. D, of said regiment are held by their country in Hartford and Ohio county, and to show the patriotic spirit of our people, a meeting is called for Friday night, May 5th, 1899, at the court house, to make preparations for the home-coming of the soldier boys. Every citizen of Hartford and surrounding country is earnestly urged to be present to offer suggestions and assist in preparing a program for their reception and entertainment on returning.

It is right that we should meet and show our appreciation of these young men who in obedience to their country's call, left home and friends to go out and engage in the uncertainties of war. Let every citizen make arrangements to be at the court house by 8 o'clock on Friday night, May 5th.

Respectfully,

THE COUNTY OFFICERS.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens. Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are driving open it don't stop because the weather is warm.

THOUSANDS HAVE BEEN CURED.

By Special and Particular Arrangement, Four Free Preparations, Embracing the Complete Slocum System, May be Obtained by Every Reader of This Paper.

Consumption is curable. The discovery has been made, perfected, triumphantly tested and given to the world by the eminent American medical expert—Dr. T. A. Slocum.

The Slocum System is a thorough, complete and comprehensive System of Treatment consisting of Four distinct Preparations. Combined, they represent the actual annihilation of Consumption, coughs, colds, asthma, bronchitis, catarrh, weakened and run-down systems, anemic conditions, laryngitis, grippe and its serious after-effects.

First—The Slocum System kills and drives out of the human system every death-dealing germ, thereby rendering it susceptible to responsive treatment.

Second—It introduces a building-up, fattening, strength-restoring food, which restores the disease-wasted tissues and brings the throat endings into active, healthy use.

Third—It stops at once all catarrhal and mucous discharges and kills the cough.

Fourth—It provides a true tonic influence, which invigorates and stimulates, vitalizes all weak spots and brings the entire system back to a healthy normal condition.

Best of all, this glorious discovery is yours for the asking. By a special arrangement made with the Doctor, readers of this paper may obtain the Four Preparations making up the complete Slocum System, as illustrated above, by sending their complete name, postoffice and express addresses to the Slocum Laboratories, 96 and 98 Pine Street, New York, being sure to mention this paper.
